

Truck Shovel User Group

TSUG

- TSUG - Who are we?
 - Mining people who maintain and operate heavy mining equipment whose overriding objective is to learn from each other and apply this learning to our respective operations.
 - In order to maximize learning, an important objective of the group is to grow their membership which in turn increases potential learning for each member.
 - Results are achieved through sharing reliability issues, equipment upgrades, maintenance planning systems, operational methodologies, mine planning, equipment, repairs, etc.
 - prevent reinventing the wheel
 - reduces reliance on OEM communication
 - provides leverage

TSUG

Mission Statement – Truck Shovel Users Group

A coalition of surface mining companies dedicated to maximizing the value of our assets through increased safety, equipment performance and productivity.

We will do this through....

Building relationships

Sharing experiences

Mutually developing best practices
